Prerequisites

Basic knowledge of IT

Objectives

Individuals seeking to gain knowledge about the main requirements of the General Data Protection Regulation (GDPR). Understand the fundamental principles of privacy and the history of personal data protection in Europe and understand the basic concepts and requirements of the General Data Protection Regulation (GDPR)

Certifications

Delegates will be presented with a Certificate of Attendance upon completion of the online training.

Training Methodology

We believe that learning is most effective when presented in a relevant context so that the skills, strategy, and knowledge are meaningful to our delegates and can be applied directly in the training.

Course Outline

<p>Chapter 1 – Privacy is..... A very public matter</p> <p>This lesson is the first introduction to GDPR. It Defines this new regulation, its objective and binding nature, when it takes effect, and why it is important to everyone within your organisation to have a basic understanding of this new regulation and its reach.</p>	<p>Chapter 2 – Six Principles of Privacy.</p> <p>This lesson focuses on the six principles of privacy that underpin the GDPR. Awareness of these six principles and the purpose they serve will deliver a reasonable understanding of the GDPR and the importance of compliance.</p>
<p>Chapter 3 – What’s What and Who’s Who under the GDPR</p> <p>This lesson will familiarize you with the key terms of the GDPR to ensure clarity and avoid misunderstandings when discussing issues related to the GDPR and its implementation within your organisation.</p>	<p>Chapter 4 – Rights and Obligations under the GDPR</p> <p>This lesson looks at the data subjects' main rights, and some practical measures - beyond the six principles of privacy - which companies have to take to comply with the requirements of the GDPR.</p>
<p>Chapter 5 – To Comply or not to comply with the GDPR</p> <p>This lesson defines which organisation the GDPR applies to. It also touches on the special requirements related to data transfer outside the EIJ, and the penalties for data breaches.</p>	<p>Chapter 6 – If you couldn’t avoid it, Manage it!</p> <p>This lesson provides an overview of what is involved in a data protection impact assessment, which companies need to employ a Data Protection Officer, and how to manage a data breach.</p>
